Announcing the 2017 Gordon Research Conference on:

Chloroplast Biotechnology

Breaking Ground Towards Plant Synthetic Biology

January 8-13, 2017

Ventura Beach Marriott

Ventura, CA

Chair: [Ralph Bock](#)

Vice Chair: [Maureen R. Hanson](#)

The 2017 Gordon Research Conference on Chloroplast Biotechnology will present and discuss cutting-edge research in all areas relevant to chloroplast genetic engineering, biotechnology and synthetic biology.

Session topics will include:

- **Organelles, Genomes and Genome Interactions**
- **Engineering Organellar Genes, Genomes and Transcripts: Technical Advances**
- **Transcription and RNA Metabolism in Plastids**
- **Recombinant Protein Expression**
- **Translation, Protein Stability, Protein Folding and Assembly**
- **Engineering Photosynthesis**
- **Synthetic Biology: From Cyanobacteria to Chloroplasts**

Complete program and online application are available at:
